John,

After reviewing the draft opening of a potential case to defraud/obstruction , I had a discussion with the case team and we believe there to be predication to include former President of the United States Donald J. Trump as a predicated subject, along with the electors, the campaign, key campaign actors, and yet to be unidentified subjects. As your office is seeking AG approval for the FBI to open this case, we of course owe it to DOJ EM to provide clarify as to the FBI's titled subjects to avoid confusion, surprises, etc. As such, I've requested the case team send me a list of the predicated subjects today, so I may pass to you. You may expect this list by the end of the day.

One caveat. As you are aware, there are 64 electors that would be initially titled as subjects of this case. Some of the electors will be state and local elected officials. Currently, we have not identified all the public officials, so the list I'll be forwarding to you will only contain the names of the electors---NOT their title/position. Our intel cadre are in the process of developing information on each of the electors, but this will take another day or so.

Thx

Tim
