National & Global Headlines

- Facebook's parent company, Meta Platforms, announced that eligible employees will be required to get booster shots.
- In a sweeping speech on the pandemic and other global issues, Pope Francis called for widespread vaccination in all countries and suggested the global coronavirus response was being complicated by "baseless information or poorly documented facts."
- India administered nearly 1 million booster doses to its eligible population on Monday, as the country continues to witness a sharp rise in cases driven by the highly transmissible Omicron variant.
- Canadian PM Justin Trudeau said the government secured enough vaccines to offer all eligible Canadians a booster shot and a fourth dose.

Active Duty Only & Service Members Fully Vaccinated by Service

¹ Inconsistent methodologies for reporting vaccination records and population denominators of Active Duty vs National Guard/Reserve Service members and DMDC data timing discrepancies have resulted in decrements to vaccination rates for Service members reported since 24 NOV. EIDS and ADVANA are working to synchronize delivery and updates of DMDC data files and align reporting methodologies in order to resolve these issues.

² Doses utilized can exceed 100% due to excess doses obtained from vials. ³ U.S. data from CDC, does not include DOD doses. ⁴ https://covid.cdc.gov/covid-data-tracker/#vaccinations

⁵ DOD Adult Population includes Active Duty Only, US Adult Population includes individuals 18+ years of age. ⁶ CONUS population includes beneficiaries enrolled to DOD Military Treatment Facilities. ⁷ Includes doses administered in US DOD vaccination sites and retail pharmacies; does not include doses administered through mass vaccination sites, school districts or non-DOD clinics.

COVID vaccine implementation updates

12 Jan 2022

- Potential issue: Pfizer-BioNTech supply to support mandate
 - 350K “plus up” of purple-cap was approved by DHA and by CAG
 - CAG now pushing back, stating that the purple and gray cap products are interchangeable
 - Current status
 - ✓ Estimated SM need to reach 100%: **700K doses**; for ADSM: **162K doses**
 - ✓ Pfizer product on the shelf which may be used for mandate: **390K total doses**
 - EUA-manufactured, EUA-labeled: 300K doses
 - BLA-manufactured, EUA-labeled: 90K doses
 - ✓ Requested mtng with CAG/CDC/OGC/DHA 11 Jan 2022
 - ✓ Alternatives:
 - Immediate ceasing of administering purple cap for non-SM
 - » Tris be ordered and directed to non-SM
 - Strongly encourage Pfizer/CDC to publically identify BLA-approved Tris lots
 - Provide “Comirnaty”-labeled vaccine
 - Await Moderna BLA approval by FDA

 2. National blood supply status is RED (less than 1 day supply).
 3. AFRICOM PAR level status is amber due to flight availability and delayed flights.

DOD COVID-19 Convalescent Plasma (CCP) Program Updates:

- CCP capability at all 20 Blood Donor Centers (BDCs): Apheresis and/or Whole Blood; however many testing center will cease testing on 31Dec2021.
- FDA EUA: On 4 February 2021, the U.S. Food and Drug Administration (FDA) issued an Emergency Use Authorization (EUA) for use of CCP; specifies additional testing platforms required to label CCP as “High Titer” and the use of only “High Titer” CCP in hospitalized patients early in the course of disease. Cut-off for Ortho Vitros IgG is now >9.5.
- DOD EUA CCP (Tested on Ortho VITROS IgG Platform): Current DOD CCP inventory is EUA compliant.

Dental Operations

CONTROLLED UNCLASSIFIED INFORMATION (CUI)

COVID-19

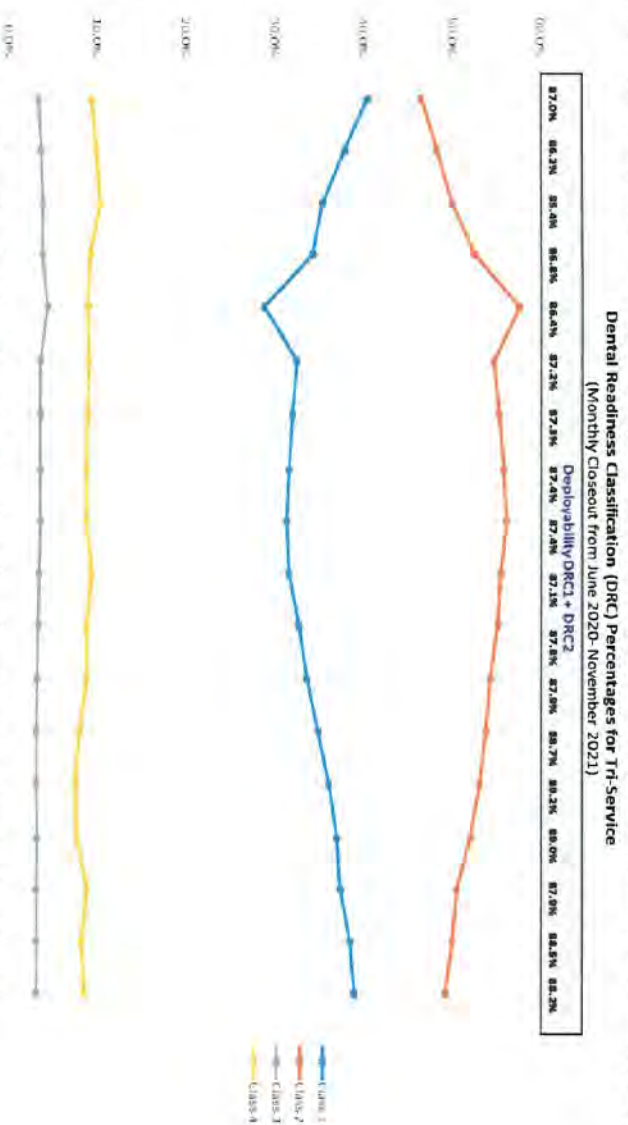

SUMMARY:

The military dental enterprise continues to provide readiness-related dental care in the military treatment facilities (MTFs) to ensure the readiness of the Force while safeguarding the health and well-being of clinic personnel and patients.

If MTFs do not have the capacity, network providers are capable of absorbing referrals from the Active Duty Dental Program (ADDP). The DHA TRICARE Dental Program Section (TDPS) under DAD-HCO is tracking market viability to ensure eligible beneficiaries under the TRICARE Dental Program and ADDP Remote have access to care to include areas in the remote regions. If a large number of activated NG/Reservists are attempting to seek direct care in MTFs with limited capacity, the Dental Directors/Commanders can request DHA TDPS to designate certain units as ADDP Remote and receive care through network providers.

HPCON Status (CONUS & OCONUS)

DTFs align with Installation HPCON Status. The majority of military dental clinics continue to provide readiness-related dental care and expand services as permitted by their available local resources.

Updated as of 1300, 12 JAN 2022
Col Jay Graver/jay.d.graver.mil@mail.mil/703-681-5339

CONTROLLED UNCLASSIFIED INFORMATION (CUI)

PRIORITIES:

- (1) Increasing operations following 8 Mar 21 Consolidated Outpatient Guidance and local conditions
- (2) Maintaining visibility on possible COVID related degradation of services
- (3) Ensuring any local COVID-related patient backlog is appropriately adjudicated
- (4) Supporting operations WRT possible variant impacts

CONCERNS:

As OCONUS DTFs expand services and address dental readiness of the force, military/family members will more likely depend on the TOPD network providers for dental services. Currently, access to dental care for family members overseas is available through the TOPD and space A in the MTF/DTFs.

REQUIRED ASSISTANCE:

- Continued support by MEDLOG to ensure PPE accessibility as dental services continue to increase throughout the MHS.
